History of the 4th of July

On **July 4, 1776 (Independence Day)**, the thirteen colonies claimed their independence from England, an event which eventually led to the formation of the United States. Each year on **July 4th**, also known as Independence Day, Americans celebrate this historic event.

This federal holiday commemorated the adoption of the Declaration of independence by the Continental Congress.

Independence Day is commonly associated with fireworks, parades, barbecues, carnivals, fairs, picnics, concerts, baseball games, family reunions, and political speeches and ceremonies, in addition to various other public and private events celebrating the history, government, and traditions of the United States. Independence Day is the National Day of the United States.

Families often celebrate Independence Day by hosting or attending a picnic or barbecue and take advantage of the day off and, in some years, long weekend to gather with relatives.
